Conley Dannels

Systems | Infrastructure | Automation

Big Spring, TX | conleydannels@gmail.com | exor.dev
github.com/Exor-o7 | linkedin.com/in/conleydannels

IT professional with over 15 years of experience in technical support, systems administration, and infrastructure. Works across cloud operations, endpoint lifecycle management, networking, and automation with Python, PowerShell, and Bash. Develops practical tools that consolidate support work and improve operational consistency.

CORE SKILLS

Cloud & directory: Entra ID, Intune, Microsoft 365, SharePoint, Exchange, Apple Business Manager

Systems & virtualization: Linux, Windows, macOS/iOS, VMware, Proxmox, TrueNAS, Nextcloud

Networking: Cisco Firepower, switches/APs, UniFi, MPLS, OSPF, BGP, VPN, firewalls

Scripting & tooling: Python, PowerShell, Bash, Visual Studio Code

Operations: Endpoint imaging/provisioning, troubleshooting, VoIP, documentation, asset lifecycle

PROFESSIONAL EXPERIENCE

Tech Support Tier 3 - Advanced Support & Internal Tools Development

Sorenson Communications (Remote) | May 2025 - Present

- Lead troubleshooting for escalated issues across videophones, laptops, desktops, and tablets; investigate complex hardware, software, and interaction problems.
- Design and develop Internal Support Workspace, a Windows application built with Python and PySide6 to consolidate support workflows, emphasizing interface design, automation, reliability, and packaging.
- Work with engineering to document and reproduce technical scenarios and support projects that improve device reliability and backend workflows.

Tech Support Tier 2 - Device Support

Sorenson Communications (Remote) | September 2024 - April 2025

- Provided advanced support for videophones, computers, tablets, and mobile devices, resolving configuration, connectivity, and performance issues.
- Created troubleshooting documentation that improved consistency for support teams.

System Administrator

Atkinson Aeronautics & Technology | March 2022 - March 2024

- Managed Entra ID, Intune/Endpoint, Microsoft 365, SharePoint, Exchange, and communications platforms; provided multi-location remote support and oversaw IT assets for 66 employees.
- Designed and maintained Cisco Firepower and UniFi networks, plus TrueNAS, Proxmox, CUPS, Nextcloud, WireGuard VPN, and 3CX services.
- Developed Python and PowerShell tools for application deployment, one-click software management, and automated printer installation; maintained IT policies and procedures.

IT Equipment Coordinator

Amazon | October 2016 - February 2022

- Managed receiving, deployment, ordering, auditing, and reconciliation of IT assets supporting 300-500 employees; troubleshot equipment and networks.
- Contributed to network lifecycle projects replacing Commodity switches with Cisco equipment, including rack builds with L3/L2 switches and UPS systems.
- Wrote standard operating procedures with troubleshooting guidance used across multiple Amazon IT sites within and outside the US.
- Coordinated projects and vendors with operations teams and contributed to a command center for monitoring activity and performance.

Computer Technician

Volunteer | January 2010 - October 2016

- Provided residential and small-business technical support, including computer builds, operating system installation, malware remediation, and hardware repair.
- Planned, installed, and configured networks for over 40 customers; coordinated infrastructure installation and trained users on hardware and software.

SELECTED PROJECT

Janitorfin - Jellyfin-native media cleanup plugin

C# / .NET 9 | github.com/Exor-o7/Janitorfin

- Developed a rules-driven cleanup workflow with a read-only preview, persistent pending queue, configurable review period, and separate scan and deletion tasks.
- Integrated optional Radarr and Sonarr monitoring updates with deletion behavior, and surfaced pending media through Jellyfin collections.

EDUCATION

Howard College - Associate of Science in Computer Science

Expected graduation: December 2027

CERTIFICATION

Cisco Certified Network Associate (CCNA) - issued January 2020

LANGUAGE

American Sign Language (ASL) - Native
